EDUCATION

- National Institute of Technology, Warangal** *Aug 2024– May 2028*
Bachelor of Technology in Computer Science and Engineering *CGPA: 9.09/10.0*
- D.A.V Public School, Pune, Maharashtra** *2024*
Board of Intermediate Education, State *12th Grade – 94%*

EXPERIENCE

- Devnco Technologies Pvt Ltd** *Apr 2025 – Jun 2025*
Software Development Intern *Pune*
 - Developed RideReady application using React Native, Node.js, Express.js, MongoDB, REST APIs, and JWT, implementing contractor/admin authentication and trip-based payout logic, supporting 200+ active drivers.
 - Processed trip-related data from RED CAP and Ford DRIVERQ systems to automate earnings calculation and transaction generation, improving payout accuracy by 30% and reducing manual reconciliation effort by 40%.
 - Built secure earnings dashboard and transaction modules with role-based access control, decreasing transaction processing time by 25%.

PROJECTS

- ShopVerse (Full-Stack Retail Management Platform)** *SHOPVERSE*
Tech Stack: React.js, Node.js, Express.js, MongoDB, Zustand, Redis, JWT, Stripe API, Tailwind CSS, Cloudinary
 - Built a full-stack e-commerce platform using React, Node.js, Express.js, and MongoDB, featuring product catalog management, category browsing, shopping cart functionality, and responsive UI design.
 - Implemented JWT authentication with role-based access control, Redis-backed refresh tokens, bcrypt password hashing, and protected admin routes for secure user and product management.
 - Integrated Stripe Checkout, Cloudinary image uploads, Redis caching, and developed an analytics dashboard using MongoDB aggregation pipelines and Recharts for sales and revenue visualization.
- SNACO Smart Campus Navigation System** *SNACO*
Tech Stack: React, Node.js, Express.js, MongoDB, Mapbox GL JS, OpenWeatherMap API, bcryptjs, RESTful APIs
 - Built a full-stack campus navigation platform using React, Node.js, Express.js, and MongoDB with interactive Mapbox maps, multi-mode routing (walking, driving, cycling), geolocation, and real-time weather integration.
 - Designed secure RESTful APIs with JWT authentication and role-based access control, implementing CRUD operations, route creation via maps, bulk place import, and admin dashboard features.
 - Designed a responsive, mobile-compatible UI/UX with interactive map controls and integrated Mapbox and OpenWeatherMap APIs for dynamic route and weather visualization.

TECHNICAL SKILLS

Languages: C++, JavaScript, SQL, HTML, CSS

Frameworks: ReactJS, NodeJS, ExpressJS

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, VS Code, Postman, Hoppscotch

Coursework: Data Structures and Algorithms, DBMS, Operating Systems, OOPs, Software Engineering, Web Development

Soft Skills: Leadership, Collaboration, Problem Solving, Communication, Task Prioritization, Innovation

Areas of Interest: Competitive Programming, Machine Learning, Web Development, GenAI, Data Analysis

POSITIONS OF RESPONSIBILITY

- Executive Committee Member**, Hindi Literary and Debating Club *2025-Present*
- Member**, Satellite and Electronics Club *2025-Present*

ACHIEVEMENTS

- Winner, Noobathon 5.0 Hackathon (CSES)** *2024*
 - Collaborated in a high-intensity team challenge to design and develop a Squid Game-themed web platform, featuring multiple interactive mini-games, player profile management, an admin dashboard, and performance analytics.
- 1st Rank, SDC GAMES** *2025*
 - Secured 1st place among 400+ participants in a multi-stage competition covering cybersecurity, web development, data analytics, Prompt Engineering and competitive algorithmic coding.
